11:55 – 13:10

Delivery Pathways and Funding Opportunities

UKSA Space Applications for Port and Maritime

Chris Hall

Space Applications Delivery Lead,
UK Space Agency

In association with **Redshift Associates**

Space Applications – Where space meets excitement!

Chris Hall

Business Applications and Space Solutions Programme Delivery Lead

UK Space Agency Space Applications and Data team

17th September 2024

What could you do?

- Something innovative, disruptive, game changing!
- Use unique space powered insights in new ways.
- Think outside the box.

- Think about:
 - Identifying market gaps.
 - Using your existing skills, knowledge and experience in new ways.
 - Socio economic benefits you could bring.
 - What leveraging the UKSA & ESA brands could do for you.

How can we help?

Feasibility Studies & demonstration projects.

A permanently open call so companies can apply at any time.

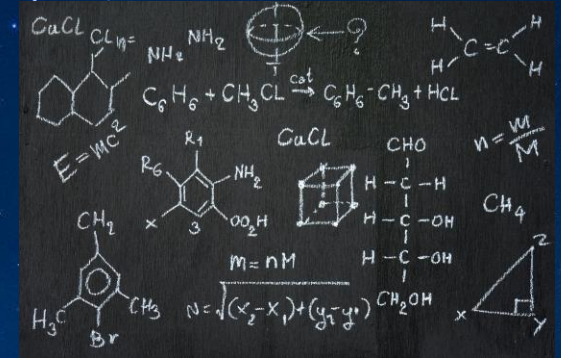

Competitive ITTs on chosen thematic topics.

Not tied to financial years or single year funding.

Flexible funding available but only at **50% intervention rate.**

The UK Space Agency brand, and the ESA brand, but mostly the UKSA brand!

Access to ESAs technical and business support, and market access networks.

What don't we support?

Hardware and
Infrastructure
development.

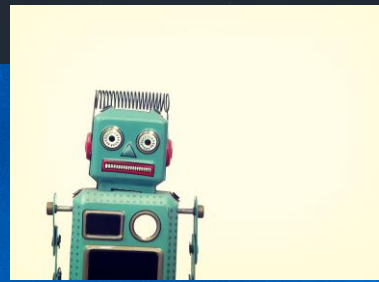

Satellite and
instrumentation
development.

Launch costs.

Satellite
operations
costs.

Research and
Development
Activities.

Any activity with
a TRL < 7

What do we look for?

Customer
pull.

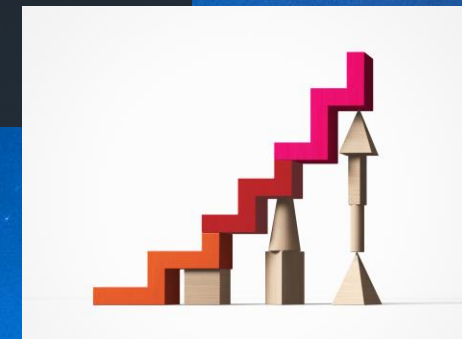

Market
opportunity.

Innovation.

Capability.

Strong BD and
Growth plan.

Future Export
opportunities.
