

→ SMART SUPPLY CHAINS POWERED BY SPACE

Funding up to €64K per Activity
Deadline: 27th May 2020

→ SMART SUPPLY CHAINS POWERED BY SPACE

The European Space Agency is supporting companies and organisations to develop space enabled services for supply chains. We want to hear about ideas for smarter, greener and safer shipping, and for more efficient distribution in the humanitarian sector. Your proposal should use at least one type of space-based asset, like satellite positioning, satellite navigation, or satellite mapping.

→ WHAT WE LOOK FOR

- ✓ Motivated teams with business and domain expertise
- ✓ Attractive market opportunities and customer engagement
- ✓ Commercially viable service concepts
- ✓ Technically feasible solutions enabled by space

→ ADDED VALUE OF SPACE

Targeted services include (but are not limited to): unmanned cargo delivery; optimised shipping through use of AI, blockchain and IoT; emission reduction; transition to electric vehicles, connected vehicles and semi-automated vehicles; tracking and tracing, especially in risky areas and to prevent fraud; use of drones in hard-to-reach areas for delivery of emergency aid etc.; and use of satellite imagery and other data to provide unique insights on supply chains.
