

→ SERVICES FOR COMMODITIES POWERED BY SPACE

Funding up to €64K per Activity

Application Deadlines:

Services for Agricultural Commodities – 11 September 2020

Services for Metal Commodities – 30 October 2020

Services for Energy Commodities – 18 December 2020

→ COMMODITIES POWERED BY SPACE

Commodities are basic goods, raw materials or primary agricultural products like wheat, copper or cattle. The European Space Agency's Commodities Kick Start offers support and funding to companies developing services to help improve the sourcing, transportation, storing, and trading of commodities using satellite data and technologies.

→ WHAT WE LOOK FOR

- ✓ Motivated teams with business and domain expertise
- ✓ Attractive market opportunities and customer engagement
- ✓ Commercially viable service concepts
- ✓ Technically feasible solutions enabled by space

→ ADDED VALUE OF SPACE

Targeted services include (but are not limited to): monitoring the environmental impact of growing or extracting commodities, securing commodity supply chains, predicting and optimising production, guiding autonomous vehicles used on farms and sites of extraction, mapping risks and hazards, and providing insights into the commodities markets. Earth observation, satellite navigation and satellite communication enable these capabilities.
