

New Capabilities for Unmanned Aerial Systems (UAS)

Dr. Stefan Gustafsson, ESA

Jens Fehler, EDA

Noordwijk, 11th – 12th May 2010

Agenda – Morning 12th May

9:00 Discussion on shaping the demonstration projects

10:15 Coffee

10:45 Continuation of discussion

11:45 Conclusion

12:00 End of the workshop

- What is required from a UAS demonstration to convince users that their needs are fulfilled?

- Which security and safety aspects need to be considered in a demonstration?
 - Security of the communication links?
 - Safety of UAS operation?
 - Are there any showstoppers?

- Airworthiness and regulations for UAS
 - When will these be available?
 - What will they cover?
