Retrieving Logger

2012-08-16 02:00:00

Heuschreckenplagen seit 2000

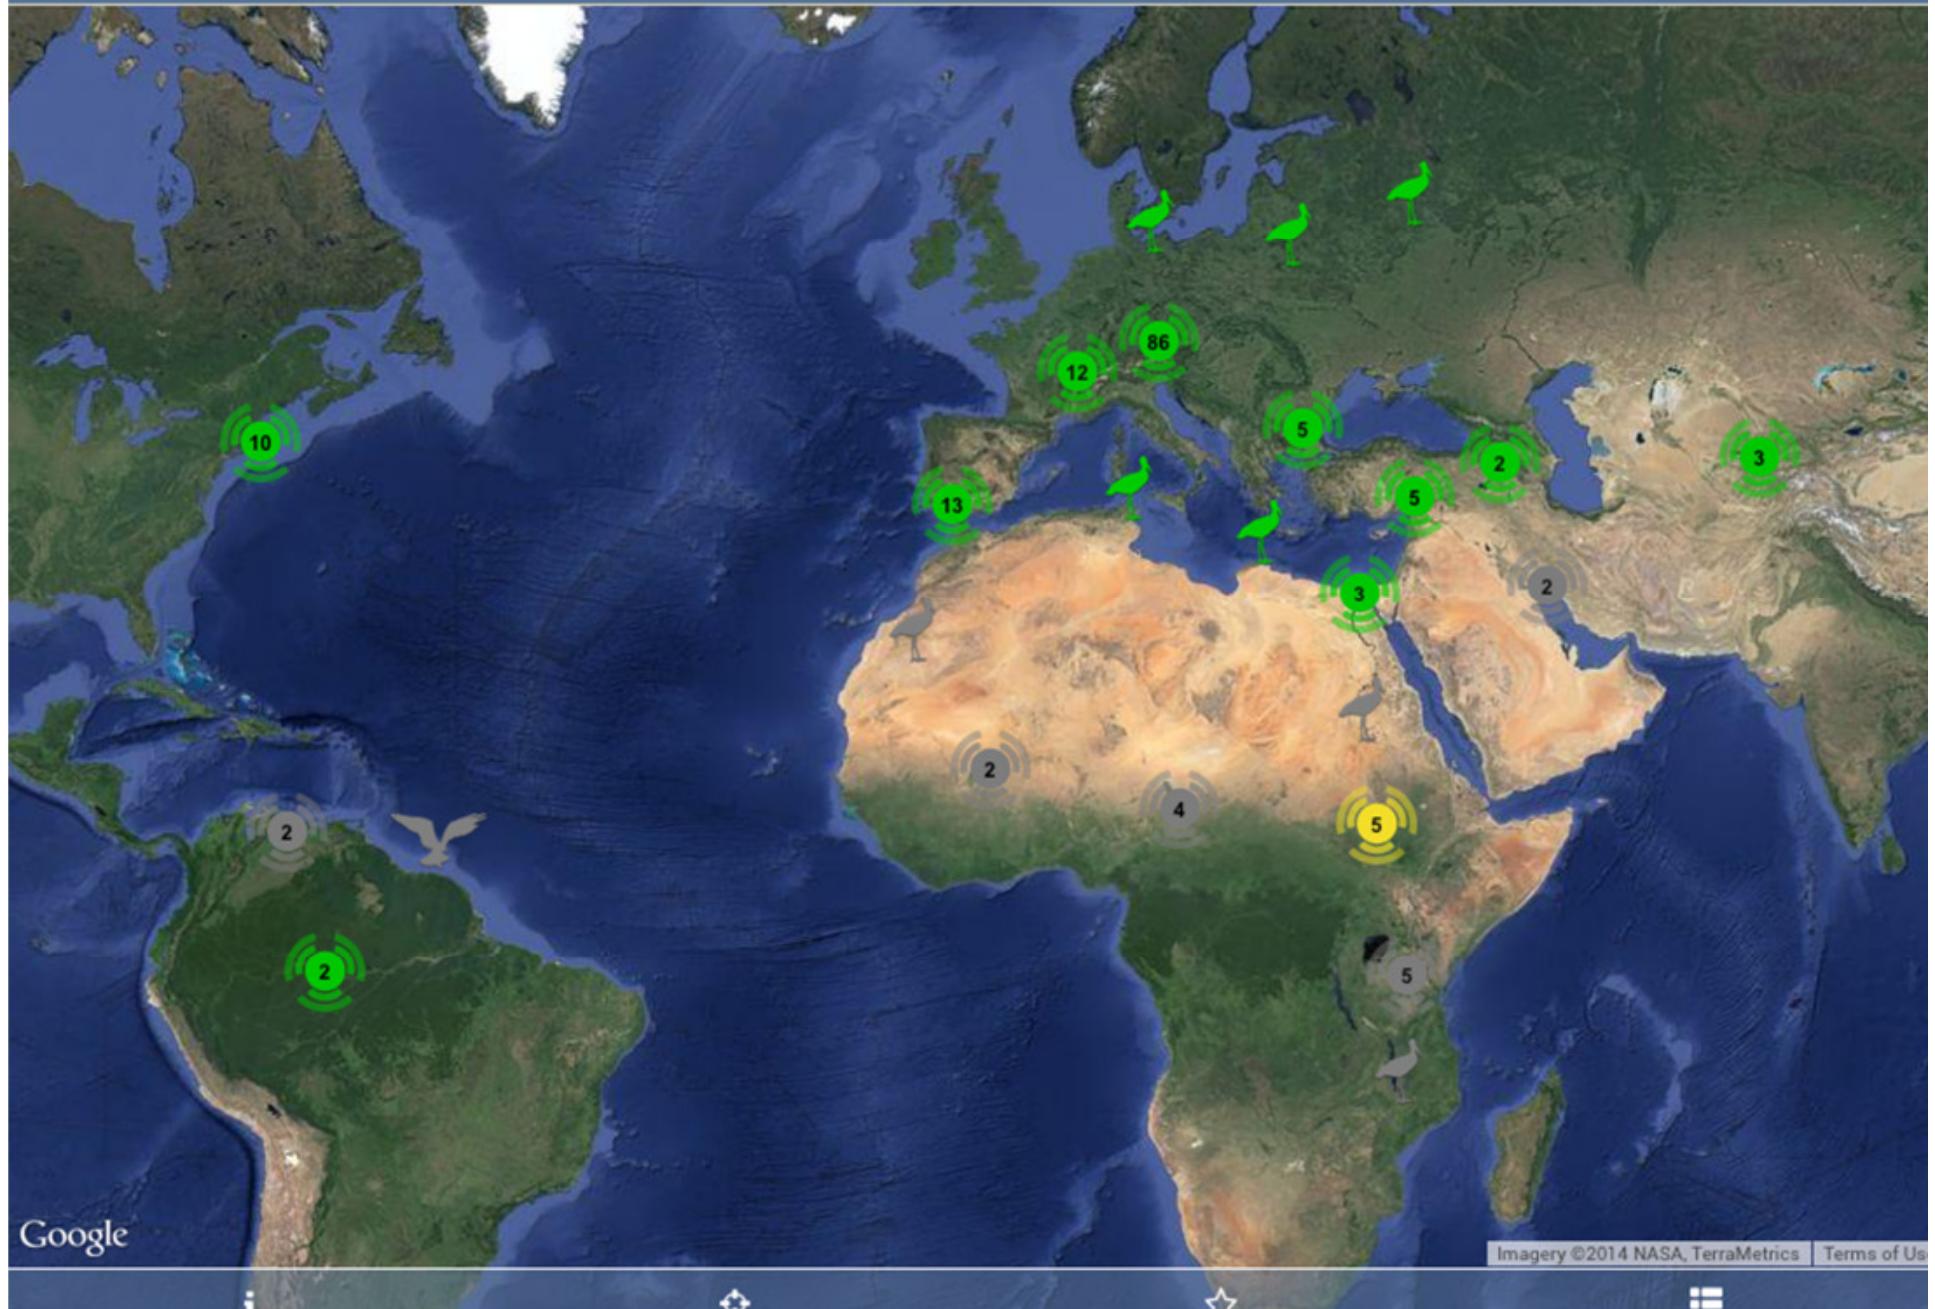

Wanderheuschrecken sind Krisen-Profiteure: Wie in Madagaskar haben sie im Jahr 2013 auch in Ägypten und Mali große Schäden angerichtet. Der Grund ist stets derselbe: Von Unruhen und Krieg geschwächte Staaten vernachlässigen die Prävention

The Google Play Store interface shows the Movebank app page. The app icon features a white bird in flight against a green background. The title "MOVEBANK" is displayed prominently with a logo consisting of a circular pattern and a bird silhouette above the letters. Below the title, it says "Animals" and "Max Planck Institute". A large "Install" button is visible, along with a warning message: "You don't have enough storage space". The app has a rating of 4 stars.

Below the main app page, there are three smaller images: a map of Africa and Europe with various location markers; a close-up photo of a white stork being held by a person's hand, with a small device attached to its leg; and a group of black seabirds in flight. At the bottom, there are four logos: the European Union LIFE program logo, the "waldrappteam" logo featuring a triangle and a bird, the "GEO" logo with a classical profile, and a vertical map of Europe.
