

# → FUNDING & SUPPORT FOR SPACE-ENABLED SERVICES IN THE ASIA-PACIFIC REGION

**Funding up to € 60 000 per Activity**  
Deadline 14 January 2019

## ASIA-PACIFIC KICK-START

The dynamic Asia-Pacific region presents excellent growth opportunities for international cooperation. The use and integration of space technologies and services being considered especially suitable due to geographical characteristics and large areas of difficult accessibility. Service areas of relevance include environmental, food security, urbanisation, extreme weather events, energy and tourism. The use of satellite assets such as communication, navigation and Earth observation, are considered valuable assets to services designed to provide commercial solutions in these domains in the Asia-Pacific region.

The European Space Agency offers support to companies for business case assessment and development of space enabled services focused on the Asia-Pacific region.
